*About the Founder ...*

*Lisa Precht began Women's Way to provide an inspiring and supportive environment in the South Metro where Women could be educated and connect on different levels. Women are hungry for a place to be able to think "outside the box". It's vital to teach women to take time for themselves, to build social and professional connections as well as inspire them to do all they were created to do. That is the mission of Women's Way.*
